HITEC HELSINKI

Would you like to combine Helsinki sightseeing with Finnish high technology?

This is the ultimate tour for you

Description: HiTec Helsinki takes you to see the Helsinki City attractions in a new way. You will visit famous attractions like the Senate Square as well as some more unknown places as an interactive team event. Participants form teams that are equipped with Nokia imaging mobile phones (mobile phones with camera) and led through a series of tasks. Some tasks require the team to use their imagination and team skills. There will also be a snack served on one task point. The teams can take the tour just for fun, or they can compete with other teams. If you are a larger party (more than 7 persons), you can form several teams and compete against each other. But if you are a small party of 4 - 7 persons, you can compete against other teams that have participated the same tour earlier!

Throughout the tour, the tool for receiving the tasks and delivering the answers is the imaging phone and MMS-services (multimedia services). The activity can be taken also to other sites than Helsinki City (for example Suomenlinna or Nuuksio), considering your program and daylight conditions.

After the event, the results and photos will be available on web, using a password given to the participants.

Duration: 1,5 - 3 hours

Operation period: Throughout the year

Service language: English or Finnish.

Group Size: Best suitable for groups of 4 - 20 persons.

Program includes:

- Preparation and implementation of the Imaging Helsinki team activity for your group
- Services of our guides
- Weather-proof outdoor clothing during the activity
- A tasty snack on one task point
- Results, comments and photos from the event available on a password protected event web site

We reserve the right for program changes
